1.1  940-0024C clone

From D. Stimits

![Diagram of 940-0024C clone]

**Note**
The original 940-0024C diagram was contributed by Steve Draper.

1.2  940-0024E clone

Reported by Jonathan Laventhol

This cable is said to use the same wiring as 940-0024C clone.

1.3  940-0024C clone for Macs

From Miguel Howard
2  Belkin

2.1  OmniGuard F6C***-RKM

From "Daniel"
A straight-through RS-232 cable (with pins 2-7 connected through) should work with the following models:

- F6C110-RKM-2U
- F6C150-RKM-2U
- F6C230-RKM-2U
- F6C320-RKM-3U

RS232

Character based protocol

3  Eaton

Documents in this section are provided courtesy of Eaton.

3.1  MGE Office Protection Systems

The three first cables also applies to MGE UPS SYSTEMS and Eaton.

3.1.1  DB9-DB9 cable (ref 66049)

This is the standard serial cable, used on most units.
3.1.2 DB9-RJ45 cable

This cable is used on the more recent models, including Ellipse MAX, Protection Station, ...
3.1.3 NMC DB9-RJ45 cable

The following applies to the MGE 66102 NMC (Network Management Card), and possibly other models. The NMC connection is an 8P8C RJ45-style jack.

3.1.4 USB-RJ45 cable

This cable is used also on the more recent models, including Ellipse MAX, Protection Station, ...
3.1.5 DB9-RJ12 cable

This cable is used on some older Ellipse models.
3.2 Powerware LanSafe

3.3 SOLA-330

Just uses a normal serial cable, with pin 1-1 through to 9-9.
4 HP - Compaq

4.1 Older Compaq UPS Family

This cable can be used with the following models:
T700, T1000, T1500, T1500j, T700h, T1000h, T1500h, R1500, R1500j, R1500h, T2000, T2000j, T2400h, T2400h-NA, R3000 / R3000j, R3000h, R3000h-International, R3000h-NA, R6000h-NA, R6000i, R6000j.

5 Phoenixtec (Best Power)

Many Best Power units (including the Patriot Pro II) have a female DB-9 socket with a non-standard pinout.
6 Tripp-Lite

From Tripp-Lite, via Bryan Kolodziej

This cable (black 73-0844 cable) is used on various models, using the "Lan 2.2 interface" and the genericups driver (upstype=5).
